

Datasheet for JC108

Specification

ID: 4mm

OD: 6mm

Length: 10 meters long

Material: Silicone rubber

Weight: 100g

Temperature range: -60°C to +200°C;

resistant to boiling, steam, and alcohol

Highly elastic, kink-resistant, and resistant to aging

Features

✔ Transparent & Visible: Allows for easy monitoring of fluid flow; no sediment buildup

✔ Safe & Hygienic: Food-grade certified; safe for direct contact with drinking water and beverages

✔ Temperature & Corrosion Resistant: Withstands high and low temperatures; resistant to acids, alkalis, alcohol, and oils

✔ Flexible & Durable: Withstands repeated bending; aging-resistant with a long service life
